INTEGRATION INSIGHTS FOR STUDENTS

A weekly series on all things integration

FOCUS ON: OPPORTUNITY

Expanding high-quality experiential options while also reducing the total cost of attendance.

- A financially-responsible degree creates a faster route to career launch and upward mobility.
- Benefit from expanded opportunities offered by a larger university- while maintaining the same personalized, small-campus experience traditionally offered at Lock Haven and Mansfield.

FOCUS ON: WORKFORCE DEVELOPMENT

Cultivating and nurturing employer relationships to stay attuned to workforce demands.

- We are committed to working with regional and statewide employers to build short-course and credentialing programs for traditional students who are looking to pick up specific certifications and credentials as they progress through their education.

STAY TUNED FOR NEXT WEEK'S INTEGRATION INSIGHTS.
